abhijan097@gmail.com | 9846678473
github.com/abhijanb

SKILLS

Frontend: React, Nextjs, JavaScript (ES6+), Tailwind CSS

Tools & Workflow: Git, GitHub, VS Code

Backend: Laravel, Express

Database: Mysql , postgresql

EXPERIENCE

Backend Developer Intern

- Developed backend features including authentication.
- Implemented CRUD systems for quizzes, questions, and course modules etc.
- Helped designed database structures for quiz attempts, course progress, and student activity analytics.
- Built REST APIs consumed by frontend for quiz taking, course management, and user operations.

PROJECT

Job Portal

Stack: Express (backend), React, tailwindCss, RTK, RTK query(Frontend)

- Built a full-stack job portal with role-based access (candidate, employer) for job posting and application workflows.
- Designed relational database schema using postgres with prisma.
- Created a responsive UI using React and Tailwind CSS.
- Integrated RTK Query for efficient data fetching, caching, and state synchronization.
- Implemented validation, error handling.

[github](#)

Peer to Peer video call

Stack: React, WebRTC, Express.js, Socket.io

- Built a real-time video chat platform with random peer matching, supporting audio/video streaming.
- Implemented call controls: mute/unmute, video on/off, next user, and call termination.
- Managed session and call state using React state and Socket.io for real-time signaling.
- Developed backend with Express.js and MongoDB to track active sessions and users.
